

IT Advisor in Guatemala City, Guatemala

CRC is seeking a qualified IT advisor to provide Master Software Developer as part of the Central America Regional Security Initiative (CARSI). The CARSI Initiative, one of the largest and most sophisticated multi-lateral security efforts in the world, provides funding for the USG to assist the governments of the CARSI countries with police professionalization, justice sector reform, counter narcotics efforts, border security management, crime and violence prevention, and anti-corruption efforts.

Duties And Responsibilities

- The Technical Advisor/Master Software Developer will be responsible for leading the development and implementation of the SI- POL 3-RAP MOPSIC records management and analysis software application including training and socializing the new application with police officers in the field.
- Attend PNC information system meetings to assist the PNC develop objectives, vision for the application, and foresee difficulties.
- Research the Guatemalan law required as part of the database resource and accessible to the PNC user.
- Complete sufficient training in the MOPSIC police model in order to have the knowledge to design the SI POL 3-RAP information system to be applied as an analysis tool that can effectively be applied the model.
- Visit police stations, planning offices, investigation units, and other related PNC officers to observe and understand police procedures important to the design of SI POL 3-RAP.
- Plan how the application must be developed to meet minimum specification and plan the implementation process.
- Determine the number of users who will be on the systems and plan the design of the application to support those users.
- Before the system goes online, project foreseeable failures and determine the “fix” for the failures in advance.
- Design the application coding and database structure to assure the user can proceed through the application while entering data without exiting and reentering the system to complete each transaction.
- Double check the design before the development process is initiated.
- Follow the design plan by blocks and modules until complete.
- Present the design by blocks/modules to the Community Policing/MPP MOPSIC Program Manager to assure the necessary policing/ analysis tools are included to be a usable application to the PNC.
- The Community Policing/MPP MOPSIC Program Manager will approve the blocks and modules before the design continues.
- Initiate utilization of SI POL 3-RAP as a beta version.
- Monitor the beta version for “bugs,” system failures, errors, and functionality issues

- and make the corresponding fixes in the beta version.
- Conduct all system maintenance during contract time frame.
 - Write the user manuals, programmer manuals, and all manual updates for SIPOL 3-RAP.
 - Train all users at all access levels in the use of the application, to include but not limited to the PNC, and the Police Reform Commission IT staff.
 - The position is located in Guatemala. Eventual in-country travel outside of Guatemala Department, particularly to Cobán, Petén, Quetzaltenango, Izabal, and other designated departments could be required as part of this position.
 - Hours for this full-time position will be the core hours of U.S. Embassy Guatemala: 7:30 am to 5:00 pm Monday through Friday, 40 hours per week.
 - Provide a written weekly activity report in English or Spanish to the INL-Guatemala Community Policing/MPP MOPSIC Program
 - Manager by or before noon Thursday of each week summarizing the week's activities;
 - Meet Bi-Weekly with the Community Policing/MPP MOPSIC Program Manager and the programming team to discuss advances and any problems with the development of SIPOL 3-RAP.
 - Submit a quarterly report in English or Spanish to the INL-Guatemala Community Policing and Model Police Precinct Advisor on or before the last Friday of each Quarter. Such quarterly report shall contain the following:
 - Number and type of meetings the Developer participated in with the PNC;
 - In the first two quarters of the contract, the quarterly report should include a PowerPoint Presentation with programming schematics and graphic representations of the goals for the information system;
 - In the third and fourth quarters of the contract, the report should include online demonstrations of the functionality of SIPOL 3-RAP in real time.
 - Report advances expected in the development of SIPOL 3-RAP for next quarter

Qualifications

- Experience in leading teams of programmers and developers of information systems and applications, to include web services.
- Guatemala citizen
- SO security clearance
- FSI English 3/3 Level, Spanish 4/4 Level
- A wide range of proven experience in WEB based applications and development.
- Experience with systems analysis and implementation.
- Have a track record of team work while following instructions of supervisors.
- Proactive, methodical and organized.
- Ability to work under pressure.
- Ability to work in teams.

- High capacity for analysis and research.
- Ability to establish good and appropriate working relationships.
- Excellent communication skills.
- High capacity to accomplish commitments and meet deadlines.

Preferred Qualifications:

- Possess a Master's degree in Information Technology or a related field from an accredited University.
- Guatemala Citizen
- RSO security clearance
- A minimum of 8 years of experience in the field of information technology.
- A minimum of 3 years of experience working with Guatemalan National Police information systems.
